

Fratelli Tutti

Encountering this very relevant, important encyclical of Pope Francis, is to discern how it can influence and enrich our lives.

Saint Francis of Assisi used the words *Fratelli Tutti, All Brothers*, when he addressed his followers to illuminate the love that “transcends the barriers of geography and distance.”

The Center for Mission has organized a monthly, five-part series of presentations and conversations to provide an overview of Encyclical chapters. Each section will be presented by specially selected speakers.
